For those parents who are unsure of which class their student should enroll in, please contact one of our Junior Directors prior to registering for a class. Our design is to have the player in the appropriate class not only based on skill level or age but factors like motivation, listening skills and their ability to be coached by our staff.

COMMONLY ASKED QUESTIONS:

Q: Why the change to the new format?

~Our goal is to give players an opportunity to participate more by giving several options to parents instead of only certain days/times. Players of all levels will push each other to advance while having a great time doing so!

Q: What if we use our pre-purchased credits and want to add a class?

~We can charge for an additional class if needed.

Q: What happens if we fail to use the pre-purchased credits?

~We apologize but we cannot extend those credits into the next season.

Q: How do I know which day to pick for my child?

~That's the beauty of Come One Come All ... you can customize and pick what days work best for your family.
